

Practice Exam 1

1. **Question:** AWS allows users to manage their resources using a web-based user interface. What is the name of this interface?

◦ **Correct answer: D. AWS Management Console.**

2. **Question:** Which statement is true regarding the AWS Shared Responsibility Model?

◦ **Correct answer: A. Responsibilities vary depending on the services used.**

3. **Question:** You have set up consolidated billing for several AWS accounts. One of the accounts has purchased a number of reserved instances for 3 years. Which of the following is true regarding this scenario?

◦ **Correct answer: A. The Reserved Instance discounts can only be shared with the master account.**

4. **Question:** A company has an AWS Enterprise Support plan. They want quick and efficient guidance with their billing and account inquiries. Which of the following should the company use?

◦ **Correct answer: B. AWS Support Concierge.**

5. **Question:** A company has decided to migrate its Oracle database to AWS. Which AWS service can help achieve this without negatively impacting the functionality of the source database?

◦ **Correct answer: B. AWS Database Migration Service.**

6. **Question:** What is the advantage of the AWS-recommended practice of “decoupling” applications?

◦ **Correct answer: B. Reduces inter-dependencies so that failures do not impact other components of the application.**

7. **Question:** Which of the following helps a customer view the Amazon EC2 billing activity for the past month?

◦ **Correct answer: D. AWS Cost & Usage Reports.**

8. **Question:** What do you gain from setting up consolidated billing for five different AWS accounts under another master account?

◦ **Correct answer: C. Each AWS account gets volume discounts.**

9. **Question:** What should you do in order to keep the data on EBS volumes safe? (Choose TWO)

◦ **Correct answer: B. Create EBS snapshots, C. Ensure that EBS data is encrypted at rest.**

10. **Question:** What does Amazon CloudFront use to distribute content to global users with low latency?

◦ **Correct answer: C. AWS Edge Locations.**

11. **Question:** What does the “Principle of Least Privilege” refer to?

◦ **Correct answer: A. You should grant your users only the permissions they need when they need them and nothing more.**

12. **Question:** Which of the following does NOT belong to the AWS Cloud Computing models?

◦ **Correct answer: D. Networking as a Service (NaaS).**

13. **Question:** The identification process of an online financial services company requires that new users must complete an online interview with their security team. The completed recorded interviews are only required in the event of a legal issue or a regulatory compliance breach. What is the most cost-effective service to store the recorded videos?

◦ **Correct answer: C. Amazon S3 Glacier Deep Archive.**

14. **Question:** Which service provides DNS in the AWS cloud?

◦ **Correct answer: A. Route 53.**

15. **Question:** Hundreds of thousands of DDoS attacks are recorded every month worldwide. What service does AWS provide to help protect AWS Customers from these attacks? (Choose TWO)

◦ **Correct answer: A. AWS Shield, D. AWS WAF.**

16. **Question:** A company is deploying a new two-tier web application in AWS. Where should the most frequently accessed data be stored so that the application's response time is optimal?

◦ **Correct answer: D. Amazon ElastiCache.**

17. **Question:** Which of the following services allows customers to manage their agreements with AWS?

◦ **Correct answer: A. AWS Artifact.**

18. **Question:** Which of the following are examples of AWS-Managed Services, where AWS is responsible for the operational and maintenance burdens of running the service? (Choose TWO)

◦ **Correct answer: B. Amazon DynamoDB, C. Amazon Elastic MapReduce.**

19. **Question:** Your company has a data store application that requires access to a NoSQL database. Which AWS database offering would meet this requirement?

◦ **Correct answer: B. Amazon DynamoDB.**

20. **Question:** As part of the Enterprise support plan, who is the primary point of contact for ongoing support needs?

◦ **Correct answer: D. Technical Account Manager (TAM).**

21. **Question:** How can you view the distribution of AWS spending in one of your AWS accounts?

◦ **Correct answer: C. By using AWS Cost Explorer.**

22. **Question:** Which of the following must an IAM user provide to interact with AWS services using the AWS Command Line Interface (AWS CLI)?

◦ **Correct answer: A. Access keys.**

23. **Question:** You have AWS Basic support, and you have discovered that some AWS resources are being used maliciously, and those resources could potentially compromise your data. What should you do?

◦ **Correct answer: B. Contact the AWS Abuse team.**

24. **Question:** Select TWO examples of the AWS shared controls.

◦ **Correct answer: A. Patch Management, D. Configuration Management.**

25. **Question:** In order to implement best practices when dealing with a “Single Point of Failure,” you should attempt to build as much automation as possible in both detecting and reacting to failure. Which of the following AWS services would help? (Choose TWO)

◦ **Correct answer: A. ELB, B. Auto Scaling.**

26. **Question:** A company is planning to host an educational website on AWS. Their video courses will be streamed all around the world. Which of the following AWS services will help achieve high transfer speeds?

◦ **Correct answer: D. Amazon CloudFront.**

27. **Question:** A developer is planning to build a two-tier web application that has a MySQL database layer. Which of the following AWS database services would provide automated backups for the application?

◦ **Correct answer: B. Amazon Aurora.**

28. **Question:** What is the AWS service that enables AWS architects to manage infrastructure as code?

◦ **Correct answer: A. AWS CloudFormation.**

29. **Question:** Under the shared responsibility model, which of the following is the responsibility of AWS?

◦ **Correct answer: B. Configuring infrastructure devices.**

30. **Question:** What does the AWS Health Dashboard provide? (Choose TWO)

◦ **Correct answer: A. Detailed troubleshooting guidance to address AWS events impacting your resources, E. Personalized view of AWS service health.**

31. **Question:** You have deployed your application on multiple Amazon EC2 instances. Your customers complain that sometimes they can't reach your application. Which AWS service allows you to monitor the performance of your EC2 instances to assist in troubleshooting these issues?

◦ **Correct answer: C. Amazon CloudWatch.**

32. **Question:** Your company is developing a critical web application in AWS, and the security of the application is a top priority. Which of the following AWS services will provide infrastructure security optimization recommendations?

◦ **Correct answer: D. AWS Trusted Advisor.**

33. **Question:** Which of the following is not a benefit of Amazon S3? (Choose TWO)

◦ **Correct answer: B. Amazon S3 can run any type of application or backend system, D. Amazon S3 can be scaled manually to store and retrieve any amount of data from anywhere.**

34. **Question:** In the AWS Shared Responsibility Model, which of the following are the responsibility of the customer? (Choose TWO)

◦ **Correct answer: D. Setting password complexity rules, E. Configuring network access rules.**

35. **Question:** What does AWS provide to deploy popular technologies such as IBM MQ on AWS with the least amount of effort and time?

◦ **Correct answer: C. AWS Quick Start reference deployments.**

1. **Question:** Which of the following can an AWS customer use to launch a new Amazon Relational Database Service (Amazon RDS) cluster? (Select TWO)

◦ **Correct answer: B. AWS CloudFormation, E. AWS Management Console.**

2. **Question:** Which of the following Reserved Instance (RI) pricing models provides the highest average savings compared to On-Demand pricing?

◦ **Correct answer: C. Three-year, All Upfront, Standard RI pricing.**

3. **Question:** Which of the following are features of Amazon CloudWatch Logs? (Select TWO)

◦ **Correct answer: D. Real-time monitoring, E. Adjustable retention.**

4. **Question:** Which of the following is an AWS-managed compute service?

◦ **Correct answer: C. AWS Lambda.**

5. **Question:** A company wants to reduce the physical compute footprint that developers use to run code. Which service would meet that need by enabling serverless architectures?

◦ **Correct answer: B. AWS Lambda.**

6. **Question:** Which of the following is the customer's responsibility under the AWS shared responsibility model?

◦ **Correct answer: C. Patching Amazon EC2 instances.**

7. **Question:** According to the AWS shared responsibility model who is responsible for configuration management?

◦ **Correct answer: C. It is shared between AWS and the customer.**

8. **Question:** Which security service automatically recognizes and classifies sensitive data or intellectual property on AWS?

◦ **Correct answer: B. Amazon Macie.**

9. **Question:** Which of the following BEST describe the AWS pricing model? (Select TWO)

◦ **Correct answer: B. Pay-as-you-go, E. Variable cost.**

10. **Question:** Under the shared responsibility model, which of the following tasks are the responsibility of the AWS customer? (Select TWO)

◦ **Correct answer: A. Ensuring that application data is encrypted at rest, C. Ensuring that users have received security training in the use of AWS services.**

11. **Question:** A customer is using multiple AWS accounts with separate billing. How can the customer take advantage of volume discounts with minimal impact to the AWS resources?

◦ **Correct answer: C. Use the consolidated billing feature from AWS Organizations.**

12. **Question:** Which AWS service allows users to identify the changes made to a resource over time?

◦ **Correct answer: B. AWS Config.**

13. **Question:** According to best practices, how should an application be designed to run in the AWS Cloud?

◦ **Correct answer: B. Use loosely coupled components.**

14. **Question:** Which benefits are included with the AWS Business Support plan? (Select TWO)

◦ **Correct answer: A. 24/7 assistance by way of live chat or a telephone call, C. An unlimited number of cases and contacts.**

15. **Question:** Which of the following is an AWS managed Domain Name System (DNS) web service?

◦ **Correct answer: A. Amazon Route 53.**

16. **Question:** A user must meet compliance and software licensing requirements that state a workload must be hosted on a physical server. When Amazon EC2 instance pricing option will meet these requirements?

◦ **Correct answer: A. Dedicated Hosts.**

17. **Question:** Which of the Reserved Instance (RI) pricing models can change the attributes of the RI as long as the exchange results in the creation of RIs of equal or greater value?

◦ **Correct answer: C. Convertible RIs.**

18. **Question:** Which service is best for storing common database query results, which helps to alleviate database access load?

◦ **Correct answer: C. Amazon ElastiCache.**

19. **Question:** When should a company consider using Amazon EC2 Spot Instances? (Select TWO)

◦ **Correct answer: A. For non-production applications, D. For fault-tolerant flexible applications.**

20. **Question:** Which AWS tools assist with estimating costs? (Select three)

◦ **Correct answer: B. Cost allocation tags, C. AWS Simple Monthly Calculator, D. AWS Total Cost of Ownership (TCO) Calculator.**

21. **Question:** A company wants to focus on business activities instead of managing compute and capacity. Which AWS service can be used to automatically add or remove Amazon EC2 instances based on demand?

◦ **Correct answer: B. Amazon EC2 Auto Scaling.**

22. **Question:** Which is the minimum AWS Support plan that includes Infrastructure Event Management without additional costs?

◦ **Correct answer: A. Enterprise.**

23. **Question:** Access keys in AWS Identity and Access Management (IAM) are used to:

◦ **Correct answer: B. Make programmatic calls to AWS from AWS APIs.**

24. **Question:** Which AWS service can be used to query stored datasets directly from Amazon S3 using standard SQL?

◦ **Correct answer: D. Amazon Athena.**

25. **Question:** How does AWS shorten the time to provision IT resources?

◦ **Correct answer: C. It provides the ability to programmatically provision existing resources.**

26. **Question:** Which AWS services can be used to gather information about AWS account activity? (Select TWO)

◦ **Correct answer: C. AWS CloudTrail, E. Amazon CloudWatch.**

27. **Question:** Which of the following are characteristics of Amazon S3? (Select TWO)

◦ **Correct answer: B. An object store, E. A durable storage system.**

28. **Question:** A user wants guidance on possible savings when migrating from on-premises to AWS. Which tool is suitable for this scenario?

◦ **Correct answer: C. AWS Total Cost of Ownership (TCO) Calculator.**

29. **Question:** Which of the following services is in the category of AWS serverless platform?

◦ **Correct answer: C. AWS Lambda.**

30. **Question:** The use of what AWS feature or service allows companies to track and categorize spending on a detailed level?

◦ **Correct answer: A. Cost allocation tags.**

31. **Question:** Which of the following inspects AWS environments to find opportunities that can save money for users and also improve system performance?

◦ **Correct answer: B. AWS Trusted Advisor.**

32. **Question:** Web servers running on Amazon EC2 access a legacy application running in a corporate data center. What term would describe this model?

◦ **Correct answer: C. Hybrid architecture.**

33. **Question:** What technology enables compute capacity to adjust as loads change?

◦ **Correct answer: D. Auto Scaling.**

34. **Question:** Which AWS service is a managed NoSQL database?

◦ **Correct answer: B. Amazon DynamoDB.**

35. **Question:** Which of the following is a correct relationship between regions, Availability Zones, and edge locations?

◦ **Correct answer: B. Regions contain Availability Zones.**

36. **Question:** What approach to transcoding a large number of individual video files adheres to AWS architecture principles?

◦ **Correct answer: A. Using many instances in parallel.**

37. **Question:** Which AWS services can host a Microsoft SQL Server database? (Select TWO)

◦ **Correct answer: A. Amazon EC2, B. Amazon Relational Database Service (Amazon RDS).**

38. **Question:** Which AWS IAM feature allows developers to access AWS services through the AWS CLI?

◦ **Correct answer: B. Access keys.**

39. **Question:** The user is fully responsible for which action when running workloads on AWS?

◦ **Correct answer: D. Implementing controls to route application traffic.**

40. **Question:** Which AWS support plan includes a dedicated Technical Account Manager?

◦ **Correct answer: B. Enterprise.**

41. **Question:** What time-savings advantage is offered with the use of Amazon Rekognition?

◦ **Correct answer: B. Amazon Rekognition provides automatic detection of objects appearing in pictures.**

42. **Question:** Which AWS service can be used to automatically scale an application up and down without making capacity planning decisions?

◦ **Correct answer: A. Amazon AutoScaling.**

43. **Question:** Which AWS program can a customer take advantage of to design and build a new workload on AWS Cloud without in-house software technical expertise?

◦ **Correct answer: C. AWS Partner Network Consulting Partners.**

44. **Question:** Which service stores objects, provides real-time access to those objects, and offers versioning and lifecycle capabilities?

◦ **Correct answer: C. Amazon S3.**

45. **Question:** Distributing workloads across multiple Availability Zones supports which cloud architecture design principle?

◦ **Correct answer: C. Design for failure.**

46. **Question:** Which service should a customer use to consolidate and centrally manage multiple AWS accounts?

◦ **Correct answer: B. AWS Organizations.**

Practice Exam 11

1. **Question:** How can a company reduce its Total Cost of Ownership (TCO) using AWS?

◦ **Correct answer: A. By minimizing large capital expenditures.**

2. **Question:** Which options does AWS make available for customers who want to learn about security in the cloud in an instructor-led setting? (Select TWO)

◦ **Correct answer: B. AWS Online Tech Talks, E. AWS Classroom Training.**

3. **Question:** Which of the following will enhance the security of access to the AWS Management Console? (Select TWO)

◦ **Correct answer: C. AWS Multi-Factor Authentication (AWS MFA), E. Password policies.**

4. **Question:** Which of the following features can be configured through the Amazon Virtual Private Cloud (Amazon VPC) Dashboard? (Select TWO)

◦ **Correct answer: C. Security Groups, D. Subnets.**

5. **Question:** For which auditing process does AWS have sole responsibility?

◦ **Correct answer: B. Physical security.**

6. **Question:** Which of the following are advantages of AWS consolidated billing? (Select TWO)

◦ **Correct answer: A. The ability to receive one bill for multiple accounts, D. Potential volume discounts, as usage in all accounts is combined.**

7. **Question:** Which of the following common IT tasks can AWS cover to free up company IT resources? (Select TWO)

◦ **Correct answer: A. Patching databases software, C. Backing up databases.**

8. **Question:** A company wants to expand from one AWS Region into a second AWS Region. What does the company need to do to start supporting the new Region?

◦ **Correct answer: C. Begin deploying resources in the second Region.**

9. **Question:** Why is it beneficial to use Elastic Load Balancers with applications?

◦ **Correct answer: C. They are capable of handling constant changes in network traffic patterns.**

10. **Question:** Which is the MINIMUM AWS Support plan that allows for one-hour target response time for support cases?

◦ **Correct answer: B. Business.**

11. **Question:** What is the lowest-cost, durable storage option for retaining database backups for immediate retrieval?

◦ **Correct answer: A. Amazon S3.**

12. **Question:** What AWS team assists customers with accelerating cloud adoption through paid engagements in any of several specialty practice areas?

◦ **Correct answer: C. AWS Professional Services.**

13. **Question:** A company needs 24/7 phone, email and chat access with a response time of less than 1 hour if a production system has a service interruption. Which AWS Support plan meets these requirements at the LOWEST cost?

◦ **Correct answer: C. Business.**

14. **Question:** If a customer needs to audit the change management of AWS resources, which of the following AWS services should the customer use?

◦ **Correct answer: A. AWS Config.**

15. **Question:** How does AWS Trusted Advisor provide guidance to users of the AWS Cloud? (Select TWO)

◦ **Correct answer: B. It provides a list of cost optimization recommendations based on current AWS usage, C. It detects potential security vulnerabilities caused by permissions settings on account resources.**

16. **Question:** Which AWS managed service is used to host databases?

◦ **Correct answer: D. Amazon RDS.**

17. **Question:** Which of the following Identity and Access Management (IAM) entities is associated with an access key ID and secret access key when using AWS Command Line Interface (AWS CLI)?

◦ **Correct answer: B. IAM user.**

18. **Question:** Under the shared responsibility model, which of the following is the customer responsible for?

◦ **Correct answer: C. Ensuring that data is encrypted at rest.**

19. **Question:** Which AWS service provides a simple and scalable shared file storage solution for use with Linux-based AWS and on-premises servers?

◦ **Correct answer: D. Amazon EFS.**

20. **Question:** What credential components are required to gain programmatic access to an AWS account? (Select TWO)

◦ **Correct answer: A. An access key ID, C. A secret access key.**

21. **Question:** Which of the following is a shared control between the customer and AWS?

◦ **Correct answer: D. Awareness.**

22. **Question:** Which of the following Amazon EC2 pricing models allow customers to use existing server-bound software licenses?

◦ **Correct answer: C. Dedicated Hosts.**

23. **Question:** Which of the following security measures protect access to an AWS account? (Select TWO)

◦ **Correct answer: B. Grant least privilege access to IAM users, E. Activate multi-factor authentication (MFA) for privileged users.**

24. **Question:** Which AWS service provides the ability to manage infrastructure as code?

◦ **Correct answer: D. AWS CloudFormation.**

25. **Question:** What is an advantage of deploying an application across multiple Availability Zones?

◦ **Correct answer: B. The application will have higher availability because it can withstand a service disruption in one Availability Zone.**

26. **Question:** According to best practices, how should an application be designed to run in the AWS Cloud?

◦ **Correct answer: B. Implement loose coupling.**

27. **Question:** AWS Enterprise Support users have access to which service or feature that is not available to users with other AWS Support plans?

◦ **Correct answer: C. Concierge team.**

28. **Question:** A company will be moving from an on-premises data center to the AWS Cloud. What would be one financial difference after the move?

◦ **Correct answer: C. Moving from upfront capital expense (capex) to variable operational expense (opex).**

29. **Question:** When performing a cost analysis that supports physical isolation of a customer workload, which compute hosting model should be accounted for in the Total Cost of Ownership (TCO)?

◦ **Correct answer: A. Dedicated Hosts.**

30. **Question:** Which AWS service should be used for long-term, low-cost storage of data backups?

◦ **Correct answer: B. Amazon Glacier.**

31. **Question:** Which is the MINIMUM AWS Support plan that provides technical support through phone calls?

◦ **Correct answer: B. Business.**

32. **Question:** Which Amazon EC2 instance pricing model can provide discounts of up to 90%?

◦ **Correct answer: D. Spot Instances.**

33. **Question:** Which of the following AWS services can be used to serve large amounts of online video content with the lowest possible latency? (Select TWO)

◦ **Correct answer: B. Amazon S3, E. Amazon CloudFront.**

34. **Question:** What can AWS edge locations be used for? (Select TWO)

◦ **Correct answer: B. Delivering content closer to users, D. Reducing traffic on the server by caching responses.**

35. **Question:** A company is planning to migrate from on-premises to the AWS Cloud. When AWS tool or service provides detailed reports on estimated cost savings after migration?

◦ **Correct answer: A. AWS Total Cost of Ownership (TCO) Calculator.**

36. **Question:** Which AWS service provides a customized view of the health of specific AWS services that power a customer's workloads running on AWS?

◦ **Correct answer: C. AWS Personal Health Dashboard.**

37. **Question:** One of the advantages to moving infrastructure from an on-premises data center to the AWS Cloud is:

◦ **Correct answer: C. It allows the business to focus on business activities.**

38. **Question:** How can an AWS user with an AWS Basic Support plan obtain technical assistance from AWS?

◦ **Correct answer: D. AWS Discussion Forums.**

39. **Question:** How can a user protect against AWS service disruptions if a natural disaster affects an entire geographic area?

◦ **Correct answer: C. Deploy applications across multiple AWS Regions.**

40. **Question:** Which activity is a customer responsibility in the AWS Cloud according to the AWS shared responsibility model?

◦ **Correct answer: D. Ensuring Amazon EBS volumes are backed up.**

41. **Question:** A customer is deploying a new application and needs to choose an AWS Region. Which of the following factors could influence the customer's decision? (Select TWO)

◦ **Correct answer: A. Reduced latency to users, C. Data sovereignty compliance.**

42. **Question:** Which AWS service provides alerts when an AWS event may impact a company's AWS resources?

◦ **Correct answer: A. AWS Personal Health Dashboard.**

43. **Question:** Which disaster recovery scenario offers the lowest probability of down time?

◦ **Correct answer: D. Multi-site active-active.**

Practice Exam 12

1. **Question:** Which of the following components of the AWS Global Infrastructure consists of one or more discrete data centers interconnected through low latency links?

◦ **Correct answer: A. Availability Zone.**

2. **Question:** One benefit of On-Demand Amazon Elastic Compute Cloud (Amazon EC2) pricing is:

◦ **Correct answer: C. Paying only for time used.**

3. **Question:** What can assist in evaluating an application for migration to the cloud? (Select TWO)

◦ **Correct answer: B. AWS Professional Services, D. AWS Partner Network (APN).**

4. **Question:** A characteristic of edge locations is that they:

◦ **Correct answer: B. Help lower latency and improve performance for users.**

5. **Question:** Which of the following are valid ways for a customer to interact with AWS services? (Select TWO)

◦ **Correct answer: A. Command line interface, C. Software Development Kits.**

6. **Question:** What is a value proposition of the AWS Cloud?

◦ **Correct answer: B. No long-term contract is required.**

7. **Question:** A company is migrating an application that is running non-interruptible workloads for a three-year time frame. Which pricing construct would provide the MOST cost-effective solution?

◦ **Correct answer: D. Amazon EC2 Reserved Instances.**

8. **Question:** Which AWS service is used to track record, and audit configuration changes made to AWS resources?

◦ **Correct answer: B. AWS Config.**

9. **Question:** Which feature of the AWS Cloud will support an international company's requirement for low latency to all of its customers?

◦ **Correct answer: B. Global reach.**

10. **Question:** How can one AWS account use Reserved Instances from another AWS account?

◦ **Correct answer: B. By using AWS Organizations consolidated billing.**

11. **Question:** What are the benefits of developing and running a new application in the AWS Cloud compared to on-premises? (Select TWO)

◦ **Correct answer: C. AWS makes it easy to architect for high availability, D. AWS can easily accommodate application demand changes.**

12. **Question:** Which of the following services falls under the responsibility of the customer to maintain operating system configuration, security patching, and networking?

◦ **Correct answer: B. Amazon EC2.**

13. **Question:** AWS supports which of the following methods to add security to Identity and Access Management (IAM) users? (Select TWO)

◦ **Correct answer: D. Using Multi-Factor Authentication (MFA), E. Enforcing password strength and expiration.**

14. **Question:** Which service provides a hybrid storage service that enables on-premises applications to seamlessly use cloud storage?

◦ **Correct answer: C. AWS Storage Gateway.**

15. **Question:** Where should a company go to search software listings from independent software vendors to find, test, buy and deploy software that runs on AWS?

◦ **Correct answer: A. AWS Marketplace.**

16. **Question:** Which of the following is a component of the AWS Global Infrastructure?

◦ **Correct answer: B. AWS Regions.**

17. **Question:** Which Amazon EC2 pricing model adjusts based on supply and demand of EC2 instances?

◦ **Correct answer: C. Spot Instances.**

18. **Question:** A company wants to migrate its applications to a VPC on AWS. These applications will need to access on-premises resources. What combination of actions will enable the company to accomplish this goal? (Select TWO)

◦ **Correct answer: B. Build a VPN connection between an on-premises device and a virtual private gateway in the new VPC, D. Connect the company's on-premises data center to AWS using AWS Direct Connect.**

19. **Question:** A Cloud Practitioner must determine if any security groups in an AWS account have been provisioned to allow unrestricted access for specific ports. What is the SIMPLEST way to do this?

◦ **Correct answer: B. Run AWS Trusted Advisor and review the findings.**

20. **Question:** Which of the following security-related services does AWS offer? (Select TWO)

◦ **Correct answer: B. AWS Trusted Advisor security checks, C. Data encryption.**

21. **Question:** Which of the following services have Distributed Denial of Service (DDoS) mitigation features? (Select TWO)

◦ **Correct answer: A. AWS WAF, D. Amazon CloudFront.**

22. **Question:** Which of the following AWS features enables a user to launch a pre-configured Amazon Elastic Compute Cloud (Amazon EC2) instance?

◦ **Correct answer: B. Amazon Machine Image.**

23. **Question:** Which of the following benefits is a characteristic of AWS Cloud computing?

◦ **Correct answer: C. Elasticity of the AWS Cloud.**

24. **Question:** What can users access from AWS Artifact?

◦ **Correct answer: A. AWS security and compliance documents.**

25. **Question:** Which of the following can limit Amazon Simple Storage Service (Amazon S3) bucket access to specific users?

◦ **Correct answer: C. AWS Identity and Access Management (IAM) policies.**

26. **Question:** How should a customer forecast the future costs for running a new web application?

◦ **Correct answer: C. AWS Simple Monthly Calculator.**

27. **Question:** Where are AWS compliance documents, such as an SOC 1 report, located?

◦ **Correct answer: C. AWS Artifact.**

28. **Question:** Which of the following tasks is the responsibility of AWS?

◦ **Correct answer: C. Securing the Amazon EC2 hypervisor.**

29. **Question:** Under the shared responsibility model which of the following areas are the customer
